Abstract

Please use this template for preparing your abstract, without changing the font size etc. Author names (first name followed by the family name) should be given without titles. E-mail addresses of all authors should be provided.

The whole abstract should not exceed 2 pages (including title, author information, figures, tables, references etc.).

References and figures are optional. Suggested format of references is exemplified below. All figures must be also provided in separate files accompanying the main file. Suggested resolution is at least 300 dpi. Raster images should be provided in *jpeg* or *png* formats. Vector graphics should be provided in *pdf* format.
